Empathy Map Canvas

An empathy map is a tool used to understand the user's thoughts, feelings, behaviours, needs, and challenges. It helps the project team view the problem from the customer's perspective and design a solution that addresses the user's actual needs.

Target User

User: College Student

User Goal:

To manage academic tasks efficiently and easily access reliable study materials.

1. What does the user SAY?

- "I have too many assignments and deadlines to remember."
- "I waste a lot of time searching for study materials."
- "I need one place where I can organize everything."
- "Sometimes I forget important submission dates."
- "It is difficult to find reliable study resources quickly."

2. What does the user THINK?

- "I need a better way to manage my academic work."

- “I should start preparing earlier for assignments and exams.”
 - “There must be an easier way to find useful study materials.”
 - “I don’t want to miss any important deadlines.”
 - “Having everything in one place would save me time.”
-

3. What does the user DO?

- Uses mobile applications and websites for studying.
 - Searches online for notes and educational resources.
 - Writes down assignment deadlines or saves them on a phone.
 - Uses messaging groups to receive study materials.
 - Frequently switches between different platforms to find information.
 - Tries to complete assignments before the deadline.
-

4. What does the user FEEL?

- Stressed when several assignments have the same deadline.
 - Frustrated when study materials are difficult to find.
 - Confused when information is available from too many sources.
 - Worried about forgetting important academic activities.
 - Relieved when tasks and resources are properly organized.
 - Motivated when academic work becomes easier to manage.
-

PAINS

- Difficulty remembering multiple deadlines.
- Study materials are scattered across different platforms.

- Time is wasted searching for relevant information.
 - Risk of missing assignment submission dates.
 - Too many applications and websites to manage.
 - Difficulty identifying reliable study resources.
-

GAINS

- Easy organization of assignments and deadlines.
 - Quick access to study materials.
 - A centralized platform for academic resources.
 - Notifications and reminders for important tasks.
 - Reduced stress and better time management.
 - More productive and organized study sessions.
-

User Needs

Based on the empathy map, the college student needs a simple and centralized solution that can help manage academic tasks, track deadlines, and provide easy access to useful study resources.

Empathy Map Summary

Section	Key Findings
---------	--------------

Says	Needs an easier way to manage assignments and find study materials.
------	---

Thinks	Wants to save time and avoid missing deadlines.
--------	---

Does	Searches online, uses multiple apps, and communicates through student groups.
------	---

Feels	Stressed, frustrated, confused, and sometimes relieved when organized.
-------	--

Pains	Missed deadlines, scattered resources, and wasted time.
-------	---

Gains Better organization, quick access to resources, reminders, and reduced stress.
